And if it's not the sea that captivates you, it will be the imposing beauty of the mountains at the back of the villa.

The garage has ample closets, additional storage space, and a utility room. From here, you can access the rest of the property by stairs or lift.

On the ground floor there are three spacious bedrooms, two of them with en-suite bathrooms. All have built-in wardrobes and large windows that frame the views of the natural surroundings.

On the main floor you will discover a bright open-plan living room and an elegant white kitchen with a central island. Separated from the living room by a modern fireplace, there is an additional room currently used as an office.

The living area opens onto a spectacular terrace with a heated infinity pool that seems to merge with the horizon. Under the pool, a large multifunctional basement offers you the possibility to adapt the space according to your needs.

This villa is equipped with the most modern technologies and high-end finishes: high-quality minimalist windows, high ceilings, electric blinds, adjustable underfloor heating throughout the house and hot/cold air conditioning. The garden offers multiple terraces ideal for enjoying the outdoors.
